

Title: **MEPRS Tools: MEPRS Early Warning  
& Control System (MEWACS)**

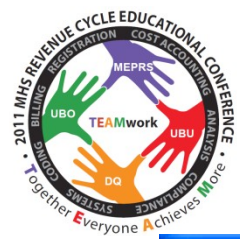

Session: **M-4-0900 / M-4-1430**

# MEWACS Background

- Web application that identifies anomalies in MEPRS data transmitted to EAS IV Repository
- Launched as an Excel workbook in 2002 and migrated online the following year
- Updated monthly with EAS IV Repository data from current fiscal year and two prior fiscal years
- Access MEWACS at [www.MEPRS.info](http://www.MEPRS.info)

# Getting Started

## MEWACS

MEPRS Early Warning and Control System

Data extracted December 16, 2010

**WELCOME TO MEWACS ONLINE!**

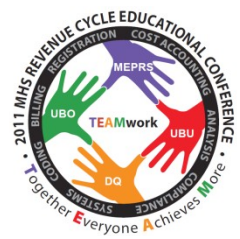

- Select a metric, enter your search parameters, and click Submit.
- To view another metric, select a different indicator from the menu. Complete any additional search fields that appear, and click Submit.

**METRIC**

Select a metric:

- Select a metric:
- Data Load Status
- Summary Outliers
- MTF Data Profiles
- WWR/EAS IV Outliers
- Allocation Test
- Allocation Detail
- Cost per Visit
- Cost per Disposition
- Personnel Profiles
- Workload-Expense Check
- MTF Names
- FCC List

- Tracks reporting compliance, data trends, allocation issues, outliers
- Note data extraction date on top of page
- Click **Contact Us** button on MEPRS portal for MEWACS help

# Data Load Status

- Tracks compliance with MEPRS reporting directives: MTFs must transmit MEPRS data to EAS IV Repository within 45 days from end of each month
- Click **Description** tab for metric details
- View **Initial Transmission Dates** or **Most Recent Transmission Dates**

**3rd MED GRP-ELMENDORF Explanation**

3rd MED GRP-ELMENDORF Explanation of Flagged Data

Unable to Transmit MEPRS data due to timecard completion being below 100% (AF Standard). The Squadron/MDG Superintendents and Commanders were provided a list by name of remaining overdue timecards and requesting assistance in enforcing on-time completion. DMHRSi initial /refresher training was provided on 15th and 18th of NOV 2010 for all timekeepers/timecard approvers. Attendance was 46% of all timekeepers/time approvers. /EDC: 30 Dec 10/ (Air Force DQ Summary Report, December 2010)

# Summary Outliers

- Flags data points that deviate notably from site trends
- Evaluates the following variables at Parent DMIS level:
  - Dispositions
  - Total Visits
  - Personnel Direct
  - Expenses
  - Total Expenses
  - Available FTEs
  - Assigned FTEs
  - Occupied Bed Days
  - Dental Weighted Procedures
- Use to determine if any monthly data points for your site are unusually high or low, which can indicate a data processing error

# Summary Outliers

- **Summary Outliers** identifies MTFs with one or more data points that differ significantly from site historical averages. Variables are flagged in red if at least one monthly value is three standard deviations above or below the facility's historical average
- Historical averages are calculated using the 12 data points prior to the fiscal month (FM) being evaluated
- For example, the historical average for FM03 of FY10 would be computed using data from FM01 and FM02 of FY10 and FM03 through FM12 of FY09

## HISTORICAL AVERAGE DATA POINTS

				06	
				06	
					01
				06	
					04
				06	
					01, 0
					01
					01, 0
18				54	64

- Red shading identifies outliers by variable and MTF
- Numbers in shaded area identify the FM(s) associated with the flag
- For example, this site has an FM11 outlier in their Dispositions data
- Click any red flag to see the corresponding data on MTF Data Profiles or Personnel Profiles

# Summary Outliers

- See a flag? Research data point in question
- If a valid reason accounts for data point, no corrective action is needed. Note reason for flag on DQ report
- If data point is in error, correct and re-transmit to EAS IV Repository
- Red flags do not necessarily mean data are wrong!

# WWR/EAS IV Outliers

- Timing issues may account for some discrepancies that appear in this metric. WWR data are sometimes not loaded to the M2 until the 20th of each month, four days after the monthly MEWACS extraction occurs. In these instances, the WWR values used in the difference calculation are a month older than those from the EAS IV Repository
- Contact the MHS Help Desk at 1-800-600-9332 with any WWR questions

0069	KIMBROUGH AMB CAR CEN-FT MEADE				\$ 0
0075	L. WOOD ACH-FT, LEONARD WOOD				\$ 0

- Proper allocation is critical to MEPRS data integrity
- During the allocation process, expenses in the Ancillary (D) and Support (E) accounts are redistributed to the final operating accounts based on performance factors outlined in the DoD 6010.13-M
- Allocation is commonly known as stepdown. When done correctly, zero dollars should remain in the D and E accounts
- Use the **Allocation Test** metric to validate the stepdown process for your site
